About Turkish Hazelnuts

Türkiye: World Leader in Hazelnuts

Hazelnuts have been exported from Türkiye to the rest of the world for the last six centuries. Türkiye accounts for about 70% of the global production and 80% exports alone. Turkish hazelnuts are classified mainly as Akcakoca, Levant or Giresun quality and they are divided into subgroups by size, shape and aromatic properties.

Hazelnuts are mainly consumed as an ingredient in chocolate, confectionery and bakery industries and in edible nut mixes. Türkiye is internationally renowned for its high quality hazelnuts and advanced processing technologies.

About Us

Istanbul Hazelnut Exporters

Istanbul Hazelnut and Products Exporters' Association has more than 200 members and representing companies, which export all kinds of hazelnuts products globally from all growing regions of Türkiye, for decades.

Hazelnuts: A Unique Source for Healthy Nutrition...

Hazelnuts have a significant place among the types of tree nuts in terms of nutrition and health benefits, thanks to the special composition of unsaturated “good” fats , protein, carbohydrates, vitamins (vitamin E), minerals, fiber, and antioxidants. The nutritional and sensoric properties of hazelnuts make it a unique and ideal ingredient for food products. Because of these many benefits, hazelnuts are highly recommended by nutritionists for a balanced diet.

A handful of hazelnuts a day;

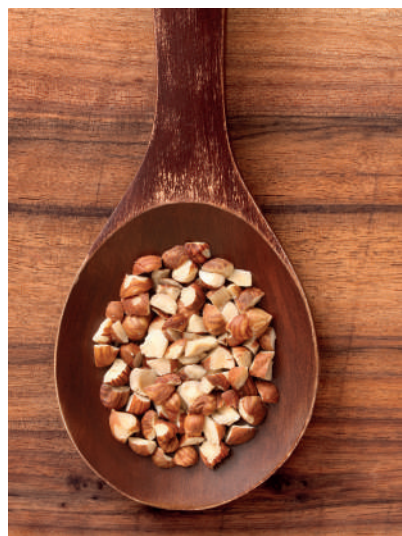

Gives energy,
Reduces cholesterol,
Regulates metabolic activities,
Helps to prevent diabetes, heart diseases, embolism and hypertension,
Nourishes and beautifies the skin,
Provides an important supplement to daily diet.

Production

Backed by Centuries of Experience to Meet the Buyers' Expectations...

In parallel to the vast production and quality aspects, Turkish hazelnut industry completes buyers' requirements with strictest food safety and quality control systems in every phase of production, particularly in processed hazelnut exports with a growing share each year. Hazelnuts are used in so many forms such as roasted, blanched, chopped, sliced, meal, paste and more. Turkish hazelnuts are produced by using the most modern technology and have top quality and hygiene standards in international level.

Select many Turkish processors are compliant with quality systems such as ISO 9000, ISO 22000, BRC, IFS to satisfy strict demands of their customers.

Export

World Famous Hazelnuts from Türkiye...

The EU and rest of the countries in Europe are the main export destinations for Turkish hazelnuts. However USA, Canada, China and the other overseas countries are becoming major export markets as well. Turkish hazelnuts and hazelnut products are exported to more than 110 countries all around the world.

Logistics

Hazelnuts are exported in wide-range of logistics alternatives such as conventional or refrigerated trucks, food grade tankers, containers on vessels and airlift. Packaging forms depending on buyers' requests and type of the product varies as jute bags, big bags, carton boxes, paper bags, vacuum packaging, plastic or metal drums, etc.
