Compliance with the quality standards valid all over the world is taken into account in all our machines that we produce. It aims to change food filling and packaging habits by developing filling systems suitable for today's production processes such as sterile, hygiene and long shelf life, as well as ergonomic design with efficiency energy values.

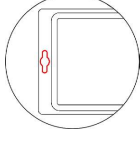

Üretimini yaptığımız, tüm makinalarımızda, tüm dünyada geçerli kalite standartlarına uygunluk dikkate alınmaktadır. Bununla ilgili verimlilik enerji değerleri ergonomik tasarım kadar, steril, hijyen, uzun raf ömrü gibi günümüz üretim proseslerine uygun dolum sistemleri geliştirerek, gıdada dolum ve paketleme alışkanlıklarını değiştirmeyi hedeflemiştir.
