

ingredissimo

WHAT IS INGREDÍSSIMO?

Ingredíssimo is a Foodíssimo's brand owned by Durania Group, a family bussines founded in 1974. Durania Group is recognised and focused on the food sector with a model based on 4 pillars: quality, honesty, innovation, and empathy.

We are located in Barcelona (Catalonia, Spain), land of gastronomic tradition and cradle of molecular cuisine, and we have national and international distributors in 3 continents.

WHO IS IT AIMED AT?

Our products are aimed at non-conformist professionals in the catering, bakery, pastry, and artisan ice cream sectors who are looking for new ways to surprise and build customer loyalty on a daily basis.

WHAT DO WE OFFER?

A selection of natural ingredients designed to decorate or accompany, in order to help to create more attractive recipes. On the one hand, we find ingredients that are already known but very difficult to access in small formats. On the other hand, highly innovative ingredients, practically unique and only used until now by leading food industries.

The packaging used is reusable and produced with a modified atmosphere, which eliminates oxygen while maintaining the qualities of the ingredient intact.

Our delivery service is 24/48h within the peninsular territory.

OVFN FRUIT

Pieces of fruit obtained by dehydration using ultrafast concentration technology, from a mixture of fruit purees and other ingredients.

You can use it as an inclusion in bakery products, chocolates, topping for ice creams, cookies, to decorate dishes...

The pieces do not caramelise in the oven, thus maintaining their initial characteristics. The fruit's own sour flavour stands out...

It allows to create new healthy products in a simple way.

ingredissimo / VEGETABLES AND OTHER FLAVOURS IN POWDER OR GRANULATED

VEGETABLES

Dehydrated vegetables to provide colour, flavour and texture while maintaining their nutritional properties to the maximum.

They give an intense colour and flavour without modifying the texture of the recipe.

They can be used as natural colouring (in pastry, bread...), or to enhance flavours and aromas in sauces.

It can also be used as decoration in dishes.
