WHAT WE STAND FOR

- Ice-cream product development.
- Excelent investment/performance ratio.
- Wide range of machinery.
- New solutions and technologies.
- Versatility and flexible customer's approach.
- Customer focus and long-term view.
- Respect and integrity.

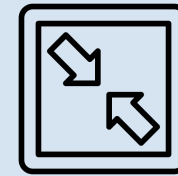

KEY BENEFITS

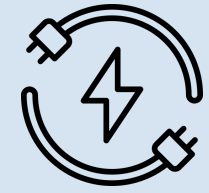

Tailored solutions.

Easy to operate.

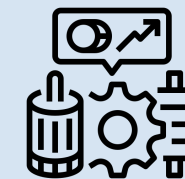

Small footprint.

Minimized energy consumption.

Low operation costs.

Spare parts friendly design.

THE FUTURE OF ICE-CREAM MAKING

- Energy-Efficient Equipment.
- Customization and Personalization.
- Automatization in ice-cream production.
- The fusion of ice-cream with other desserts, such as ice-cream filled donuts or cookie/ice-cream sandwiches.
- Globalization will increase unique and exotic flavours inspired by cuisines and cultures from around the world.

TURNKEY PROJECTS

Experience the advantages of a single-source manufacturer for all your ice cream equipment needs, covering the entire production process—from mix preparation to freezing and packaging. You also have the option to integrate dry ingredient handling, conveyor systems, and CIP systems.

- Full automatic factory in Azerbaijan 10 t/h.
- Full automatic factory in Russia 20 t/h.
- Over 200 customized extrusion lines sold.

GET TO KNOW US

We are a team of highly qualified and enthusiast people who can help you to accelerate and optimise your business. With a know-how in ice-cream over 30 years we cover all the aspects in processing the ice-cream.
