Vojta equipment – worldwide supplier of industrial ice cream machinery

We are specialised in design, manufacturing, sale and service of equipment and complete plants for the industrial production of ice cream. In response to the ever-increasing demand of our customers for quality and versatility of industrial ice cream machinery, we intensively develop and improve our products. Based on experience of our motivated and skilled people and by using the possibilities of our firmware we can suggest solutions for effective and practical set-up of the line according to the customer's individual requirements. For existing ice cream lines we provide accessories for producing new ice cream products and upgrades to widen performance.
