# YINGSHENG

SCIENCE & TECHNOLOGY

Yingsheng Science & Technology Co., Ltd.  
was established in 2012. By virtue of high starting point,  
strict requirements and great investment,  
now the Company has a capacity of 1.5 million  
square meters plastic packaging materials,  
which is far ahead in the same domestic industry.

SINCE  
2012

105,662.5  
SQUARE METERS

# COMPANY BACKGROUND

---

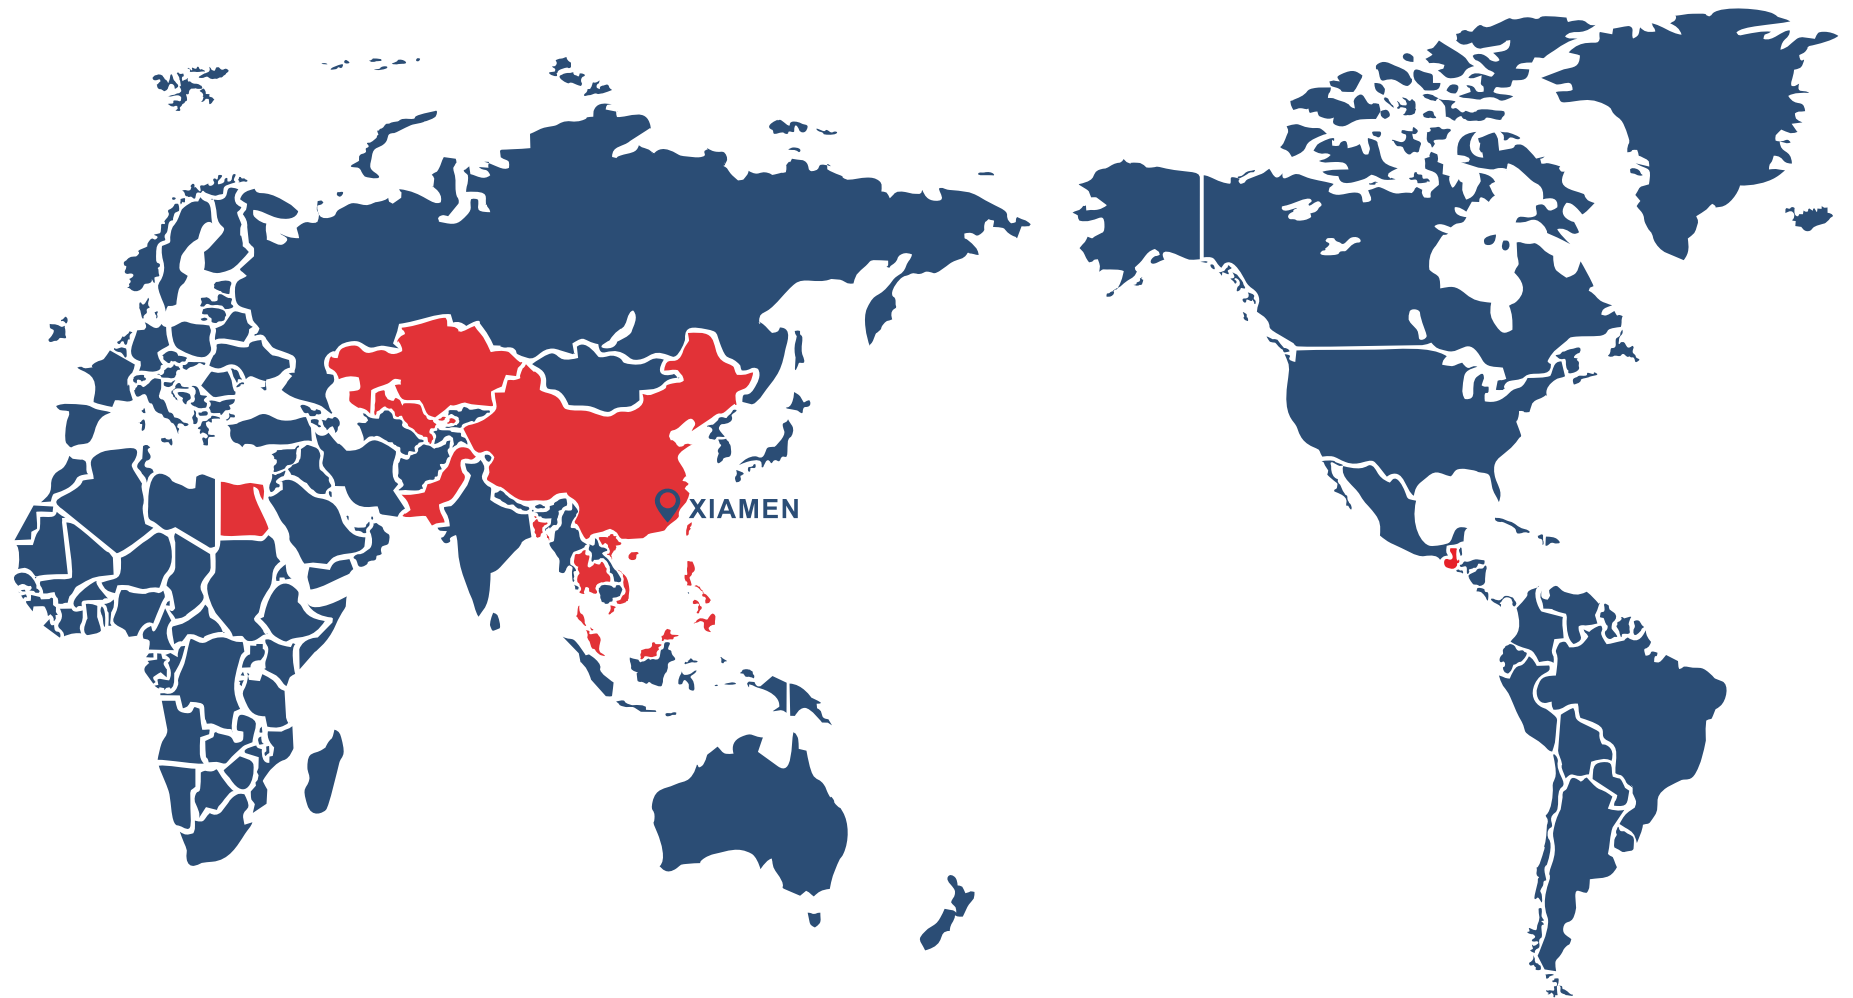

Xiamen Yingsheng Science & Technology Co., Ltd. was established in 2012.

By virtue of high standard, strict criteria and big investment, now has approached an annual capacity of 10 billion aseptic paper plastic packaging which is far ahead in the same domestic industry.

The Company sticks to scientific and technological innovation and lean production, firmly focuses on packaging material, It both creates excellent terminal products and sustainable and stable value enhancement through more healthy and fashionable products, and services of overall process and environment.

# COMPANY BACKGROUND

# COOPERATIVE PARTNER

---

# PRODUCT

# PRODUCT

## Inside Layer 2

Inner PE layer : Directly contacts the product.

## Inside Layer 1

Adhesion layer : Effectively bonds the inner PE layer and aluminium foil that contact the product.

## Aluminium Foil

Blocks light, air and pollution from the outside.

## Laminate Layer

PE layer : Uses for laminating aluminium foil and paper board .

## Paper Board

Paper layer : Provides stable packing strength.

## Outside Layer

Printing layer : Displays product image and gives high vision impact.

# EQUIPMENT-PRINTING MACHINE

► 2×Heidelberg(GALLUS) printers with 7 colors.  
(INTRO 1300-type unit soft-plate) from Germany.

Max. speed : 500 m/min.

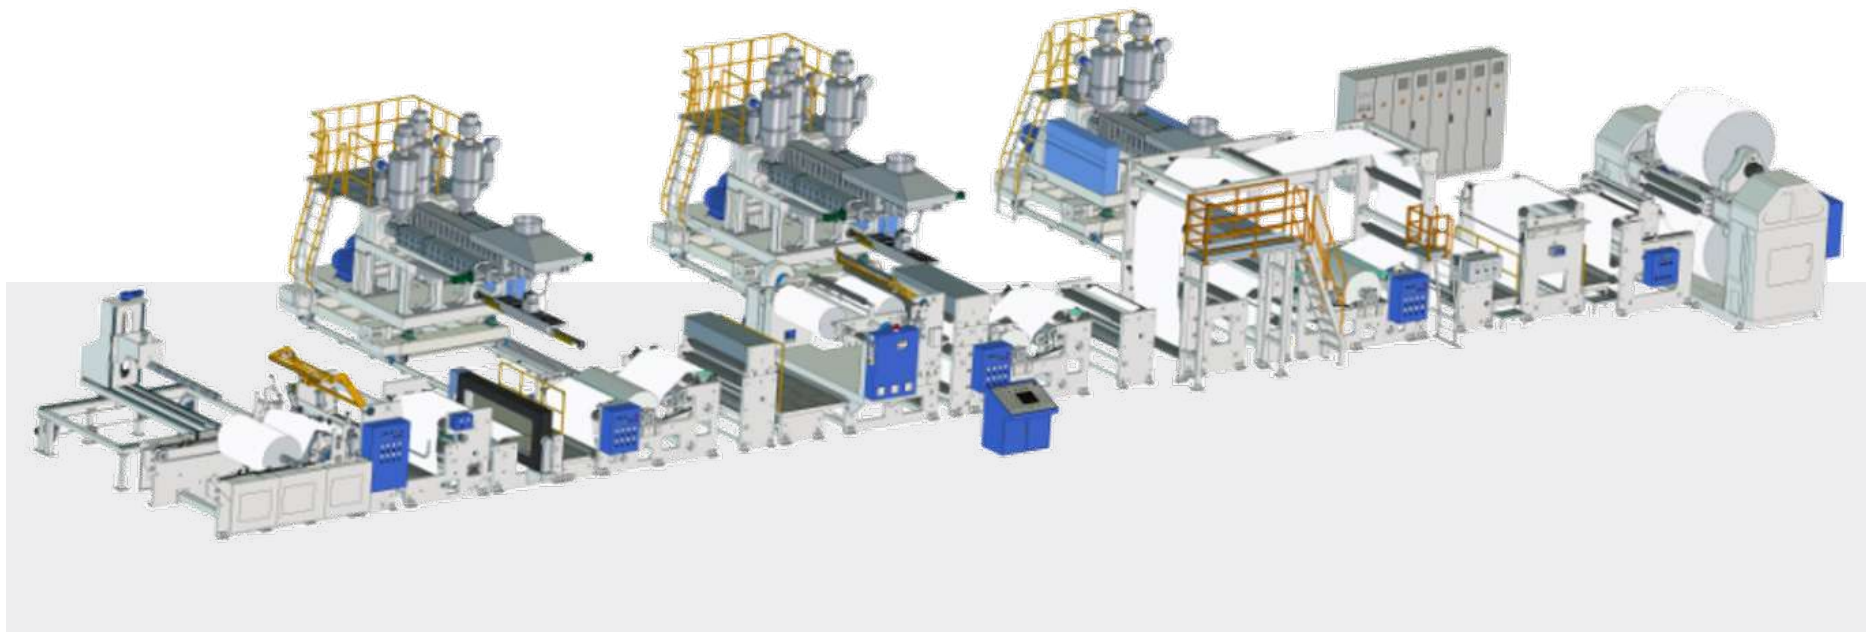

DOYLY Web-cleaner, ELTROMAT auto registration  
system and ISRA on-line defect inspection system.

# EQUIPMENT-LAMINATING MACHINE

## ► 1×German ER-WE-PA laminating machine

Max. speed is 600 m/min, with HILL Flame-treater, Auto dies, BST Grammage control system and ISRA on-line double-sided inspection system.

# EQUIPMENT-LAMINATING MACHINE

▶ EXTRUSION DOCK

BST BATA-CONTROL ▶

Coating Grammage Control System

# EQUIPMENT-LAMINATING MACHINE

---

## ► 1×Kangjun laminating machine

Max. speed is 400 m/min, equipped with Aerogen Flame-treater, Nordson Auto dies, NDC Grammage control system and ISRA on-line double-sided inspection system.

# EQUIPMENT-SLITTING MACHINE

---

## ► 2×IMS Slitting machine from Italy

Max. speed : 1000 m/min.

Auto edge-guiding system and auto splicing device.

## ► 1×Jiaxu split axle Slitting machine

Max. speed: 1000 m/min.

# EQUIPMENT-DOCTORING MACHINE

## ► 2\*IMS Doctoring machines

Max. speed: 1200 m/min.

## ► 4\*Jiaxu Doctoring machines

Max. speed: 600 m/min.

## ► 2\*ZEUGMA Doctoring machines

Max. speed: 1200 m/min.

# QUALITY ASSURANCE

At present, Yingsheng has finished significant events as below:

- 1、Pass the BRCGS-PM Global Standard product certification of Packaging Material .
- 2、Establish a quality, food safety, environmental, and occupational health and safety management system.

## Advanced on-line faulty inspection devices

*ISRA Defect Scanner*

*ISRA Color Detector*

*BETA CONTROL Thickness Gauge*

*Laser Label Machine*

Bending Stiffness Tester

Friction Coefficient Meter

Electronic Tension Machine

## Technology R&D Center

The company has established a municipal-level R&D center to provide and supplement new technology for the company and market.

## QA

Quality control, responsible for the operation of the company's system and the testing of all raw materials.

## QC

Quality inspection, responsible for quality inspection indicators and data in the production process.

### **After-sales service**

Yingsheng is based on the spirit of "pursuing high quality and customer satisfaction in everything", And in accordance with the principle of "the most favorable price, the most considerate service and the most reliable product quality" solemnly promise to you.

### **Quality assurance**

There are quality records and testing data for the manufacturing and testing of products. The performance of products shall be tested, and the whole process and performance of products shall be inspected. The products can be packed for delivery after confirmed to be qualified.

### **Product price commitment**

In order to ensure the high reliability and progressiveness of the products, the materials of the system are selected from famous brand of domestic or international with high quality products. Under the same competitive conditions, on the basis of not reducing the technical performance of the products and changing the product quality, yingsheng sincerely provides the most favorable price to customers but not at the cost of technical performance and quality of products.

### **Leadtime commitment**

**Product delivery date:** try to meet the customer's requirements. If earlier completion is required, yingsheng can partially organize production to meet the requirementn of customers. The delivery control strictly follow the requirements of national standard GB / T18192 - 2008 paper-based composites for aseptic packaging of liquid food, conduct delivery inspection and issue delivery inspection report.

### **Service commitment**

**Tenet:** fast, decisive, accurate, thoughtful and comprehensive.

**Objective:** maintain the highest standards of quality service to win customer's satisfaction.

**Efficiency:** if there is a problem with the product, yingsheng can give a preliminary solution within 24 hours after receiving the feedback, and onsite technical support if needed.

# ENTERPRISE QUALIFICATION

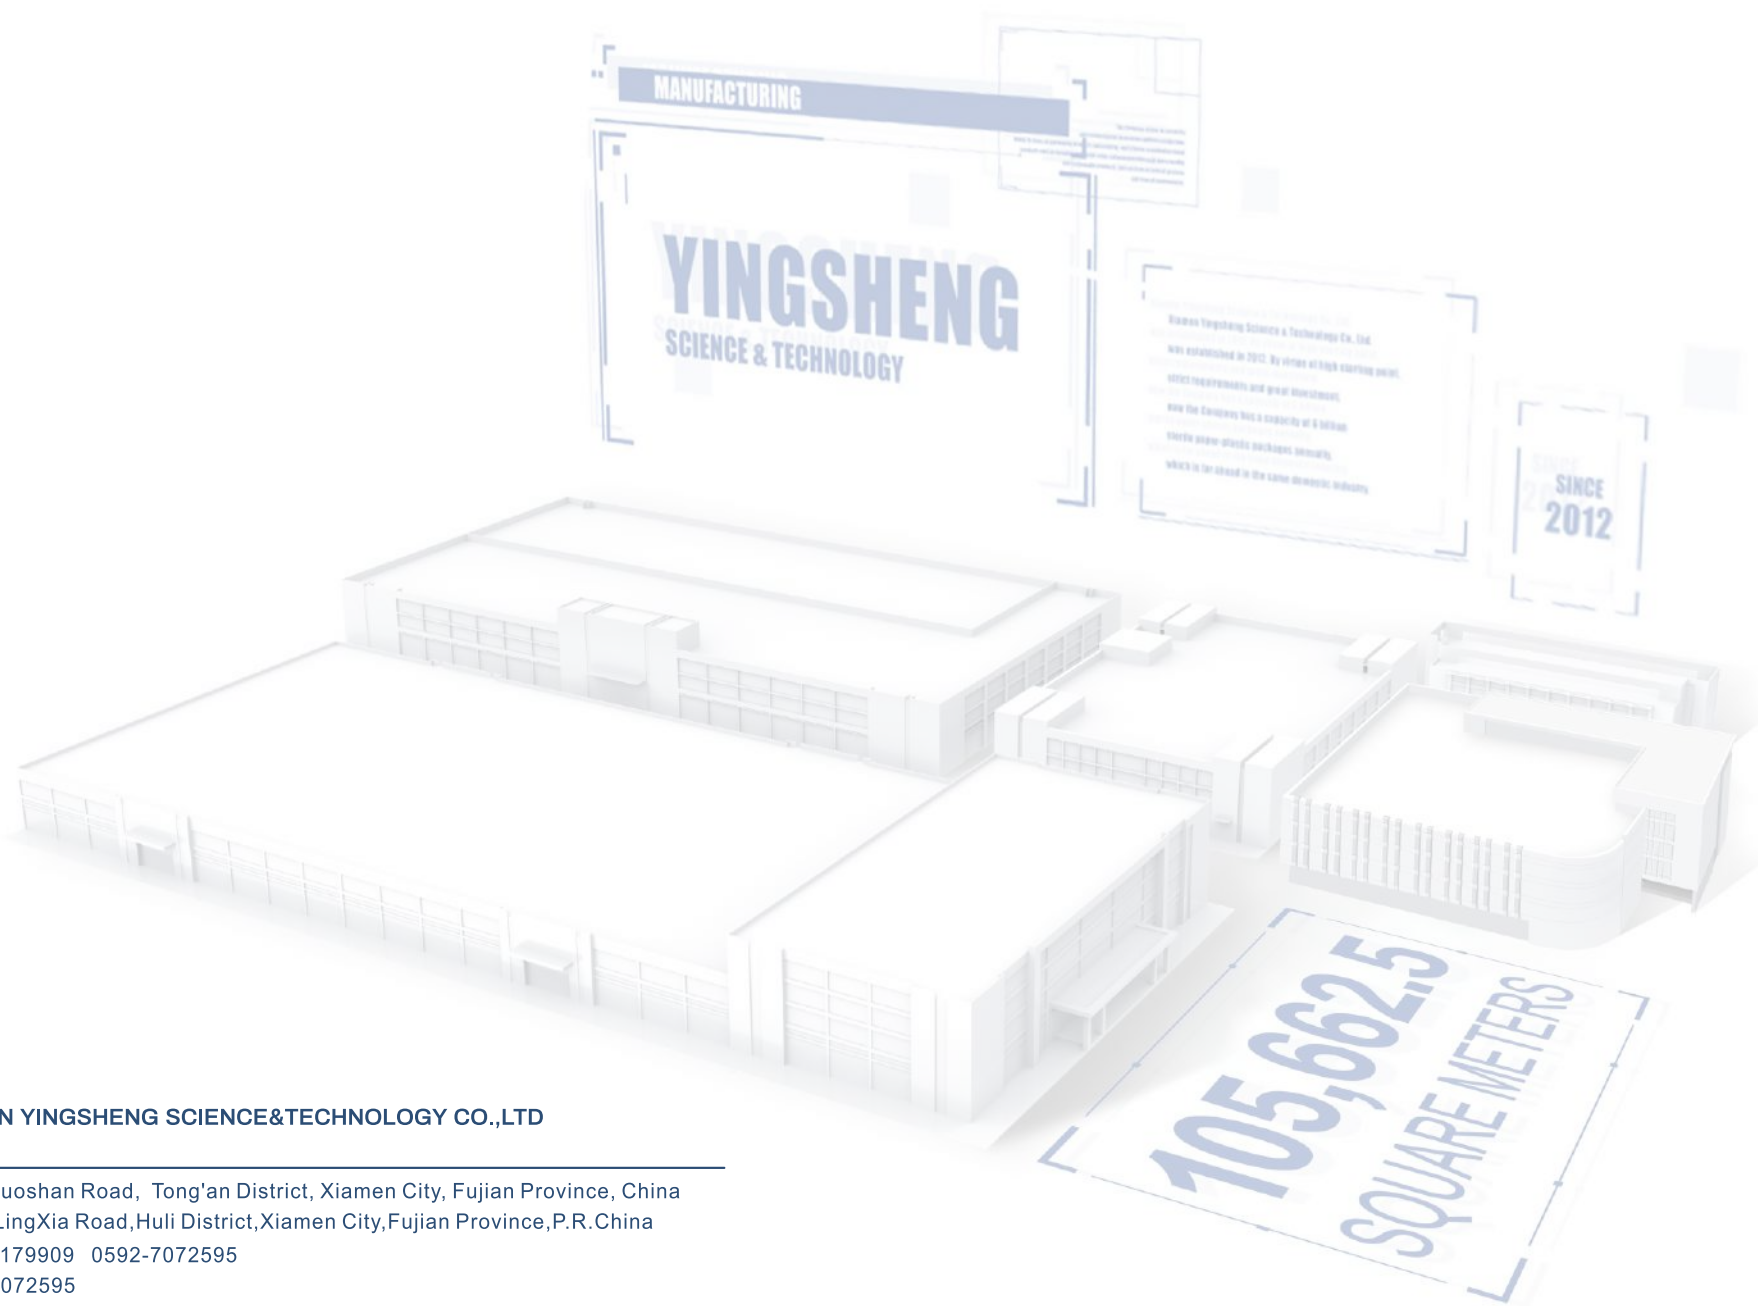

## ENVIRONMENTAL FRIENDLY RENEWABLE RESOURCES

---

Aim for Carbon reduction, Yingsheng dedicated to rational management of wastewater and exhaust gas in the production and operation process. Also, Yingsheng has cooperating with suppliers which specialized in carbon emission reduction to minimize the effects. Strictly abide by the laws and regulations related to environmental protection.
