

3-in-1 Water Filling Machine(0.2L-2L)

Product Description:

This filling machine is fully mechanical with variable speed drive and gravity/counter pressure filling system. The mineral water bottles are fed into the rotary rinser, filler, capper by means of an input feed conveyor. Bottles after being rinsed are automatically transferred by a star wheel to the filling station.

Model	XGF8-8-3	XGF14-12-5	XGF18-18-6	XGF24-24-8	XGF32-32-10	XGF40-40-10	XGF50-50-15
Capacity based on 500ml Bottles/Hour	2000-3000	4000-6000	6000-8000	8000-10000	13000-16000	17000-20000	20000-24000
Bottle Material	Plastic/Glass						
Filling Precision	±1ml						
Total Power	4.4	4.4	4.4	4.4	5.2	6.2	7.8

Rotary Bottled Water Filling Machine(3-10L)

Product Description:

This series of machines combines bottle rinsing, filling, and capping. It's Mainly used for 3-10L bottled Water.

Model	XGF12-12-1	XGF15-15-5	XGF24-24-8
Capacity Based on 5L Bottles/H	1000-1500	1500-2000	2500-3000
Bottle Diameter(mm)	100-220mm		
Bottle Height(mm)	150-350mm		
Total Power(KW)	2.2	3	4

Barrel Water Filling Machine(3-5 gallon)

Product Description:

The automatic barrel filling machine is a series of products exclusively for the 3/5 gallons barrel filling production line.

Model	QGF-100	QGF-240	QGF-300	QGF-450	QGF-600	QGF-900
Capacity Based on 5 Gallon Barrels/H	60-100	100-240	250-300	400-450	600-800	800-900
Barrel Size (mm)	Φ270*490					
Filling Precision	+0.5%					
Total Power (KW)	1.38	1.75	3.8	3.8	7.5	9.75
