MODUTECH is a brand of İŞÇİMENLER Group

We Turn Ideas into Reality

As Modutech, one of the leading companies in the plastic modular belt industry, we continue to grow rapidly. With 2 factories spanning over 15,000 m² production area, we offer our customers the advantages of flexible manufacturing, exceptional service, and just-in-time delivery. We carry out all mold manufacturing in-house to ensure complete control over quality and precision.

With the addition of our new Modutech facility, we have doubled our production and stock capacity, all while maintaining the highest product quality.

We continue to expand our product range each day, committed to offering the widest selection in the industry.

We proudly serve the globe, with a presence in more than 80 countries across six continents.

Fuelled by our flexibility, comprehensive pre-sales and after-sales service, and strong focus on product quality, we build long-term collaborations with distributors, OEMs, and industrial companies around the world.

Our dedicated teams work 24/7 in three shifts to respond swiftly to your requests and urgent needs.

Carrying your business forward—today, tomorrow, and always.

Why Modutech?

Innovative Belt Solutions for Packaging Industry

At Modutech, we design and manufacture advanced modular belt solutions tailored for the packaging industry. Our innovative modular belts enhance productivity, reduce downtime, and improve process efficiency. With cutting-edge materials and engineering, we ensure that every packaging line operates smoothly and reliably, meeting the evolving demands of modern packaging facilities.

Durability & Reliability for Continuous Operations

We understand that uninterrupted production is critical in the packaging industry. Our modular belts are built to withstand high loads, abrasions, and continuous operation without compromising performance. Designed with durability in mind, our belts reduce wear and tear, extend service life, and minimize maintenance needs, providing long-term reliability for packaging operations of all scales.

Hygienic & Food-Grade Solutions

Hygiene is a critical factor across various packaging industries, from food and pharmaceuticals to electronics and consumer goods. Our modular belts are designed to meet stringent industry standards, ensuring compliance with hygiene and safety regulations. Easy to clean and resistant to contaminants, our belts support safe and efficient packaging processes while maintaining product integrity. With non-porous surfaces and quick-cleaning capabilities, we help businesses across all sectors maintain the highest standards of cleanliness and operational efficiency.

Optimized Packaging, Seamless Performance

Efficiency and precision are essential in packaging. Our modular belt solutions optimize material handling, improve speed, and streamline the entire packaging process. Whether it's for cartoning, shrink wrapping, case packing, or palletizing, Modutech belts provide superior performance with minimal downtime. Our solutions integrate seamlessly with automated systems to ensure smooth, consistent performance across all packaging applications.

Task-Oriented Belting Solutions

0.3 Inch – 8 mm Micropitch Belt Series

MP80 C

Tight Transfer Belt

- Micropitch belt design
- Suitable for nosebar/knife edge applications
- Flexible and strong product
- Quick installation and easy maintenance

0.5 Inch – 12,7 mm Minipitch Belt Series

EC127 C

Handling Belt

- Easy to clean
- Quick installation and easy maintenance
- Multifunctional belt design

EC127 GT

Friction Belt

- Easy to clean design
- Square Rubber top surface
- High friction for incline/decline conveyors
- Quick installation and easy maintenance

SM127 FG-GT

Friction Belt

- Smooth belt design
- Flush Grid & Rubber top surface
- Suitable for incline/decline conveyors
- Quick installation and easy maintenance

0.6 Inch – 15,2 mm Minipitch Belt Series

HC152 FG

Handling Belt

- Strong, lightweight and smooth surface belt design
- Suitable for nosebar/knife edge applications
- Ideal for general conveying
- Optional grip top surface

1 Inch – 25,4 mm Modular Belt Series

MD254 C

Handling Belt

- Strong and thick belt design
- High load capacity
- Food approved materials
- Quick installation and easy maintenance

1 Inch – 25,4 mm Modular Belt Series

MD254 C-RT

Accumulation Belt

- Close & Roller top surface
- Suitable for product accumulation lines
- Strong and thick belt design
- High load capacity

MD254GAP48%-EHT

Shrink Wrapping Belt

- Flush grid design & high open area
- Suitable for shrink wrapping tunnels
- High temperature resistant material
- Stainless steel pins applied

2 inch – 50,8 mm Modular Belt Series

EC508 GT

Friction Belt

- Easy to clean design
- Rubber top surface
- High friction for incline/decline conveyors
- Quick installation and easy maintenance

MD508 C

Handling Belt

- Closed & Flat top surface
- Suitable for general conveyance
- Strong and thick belt design
- High load capacity

MD508 FG-RT

Accumulation Belt

- Open & Roller top surface
- Suitable for product accumulation lines
- Strong and thick belt design
- High load capacity

Sideflexing/Radius Modular Belt Series

EC254 TR

Tight Radius Belt – 1 inch / 26 mm pitch

- Radius and straight product transport
- Ideal for applications with limited space
- Easy to clean belt design
- Suitable for packaged/unpackaged product transfer

Applications Table

Belt Code	Surface Type	Packaging Processing													
		Checkweighers	Filling conveyors	Capping conveyors	Labeling conveyors	Case packers	Shrink wrapper	Tray packers	Metal detectors	Box inclines / declines	Accumulation conveyors	Palletizing / depalletizing	Bulk inclines	90° transfer	Horizontal box transport
0.3 inch – 8 mm Modular Belt Series															
MP80 C	Flat Top	POM			POM										POM
MP80 NS	Non-Slip				POM										POM
0.5 inch – 12,7 mm Modular Belt Series

Materials:

PP: Polypropylene, **POM:** Polyoxymethylene, **PE:** Polyethylene, **EHT:** Extra High Temperature, **PPH:** Hot Water Resistant Polypropylene

The provided selection tables highlight standard belt types and materials as general recommendations. Depending on specific application requirements, other belt types or materials may be more appropriate. For special applications, please contact with Modutech representatives.

Proud Member of

Full Compliance with Global Food Safety Standards

Modutech food conveyor and processing belts are meticulously engineered to meet the stringent food safety and plastic regulations, such as FDA, USDA, EC 1935/2004 and EU No.10/2011.

We offer you the right design, color and material that supporting your ISO 22000 requirements (previously HACCP).

Highest Quality

Modutech is certified according to ISO 9001:2015, ISO 14000:2015 and ISO 45001:2018.

We do everything to ensure full compliance with international standards and earning your trust every step of the way.

Expert Service

Our global network stands ready to support you, wherever you are.

Need engineering advice, a quote, or help with an order? We've got you covered!
