The **#1 Industrial AI Platform**

Operational excellence at scale

ethon.ai

EthonAI's
Industrial AI Platform
saves USD 1M+ per factory
at 5x-10x ROI

Up to 80%
Scrap reduction

+25%
Operator productivity

<3 months
Time-to-value

Focus industries

CPG   Electronics   Mechanics   Process Industry
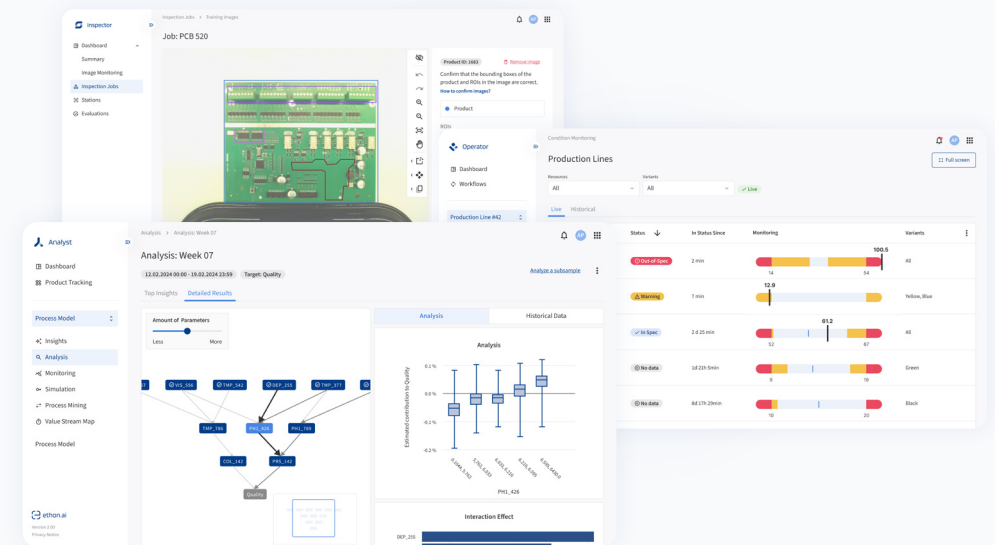

Selected customers

Lindt   SIEMENS   BOSCH   Roche

Modules

Analyst
Automatically find the "why" behind every "what".
Identify hidden waste with workflows for automated root cause analysis, value stream mapping, process mining, and unit tracking.

Operator
Run every process like your best operator does.
Orchestrate production lines with live dashboards, anomaly detection, rule-based monitoring, and autonomous process control.

Inspector
Automatically inspect products, surfaces, and assemblies.
Detect subtle surface defects, complex assembly errors, and irregularities in product quality using any industrial camera.
