|                   |  | Blended Lake       |

# FOOD COLOURS

BLENDED  
COLOURS

FD & C  
COLOURS

The image features a vertical arrangement of fabric swatches on the left, transitioning from yellow at the top to pink, then red, and finally a small greyish-blue at the bottom. To the right of the fabric are various food items: turmeric powder and ginger root at the top, followed by two slices of beetroot, and a bowl of pomegranate seeds at the bottom. A large yellow circle with a white border is positioned in the center-right, containing the title. Below the circle is a vertical color gradient bar with five semi-circular segments, each connected by a line to a small circle and a text label.

# NATURAL COLOURS

Curcumin

Annatto

Paprika

Beta-carotene

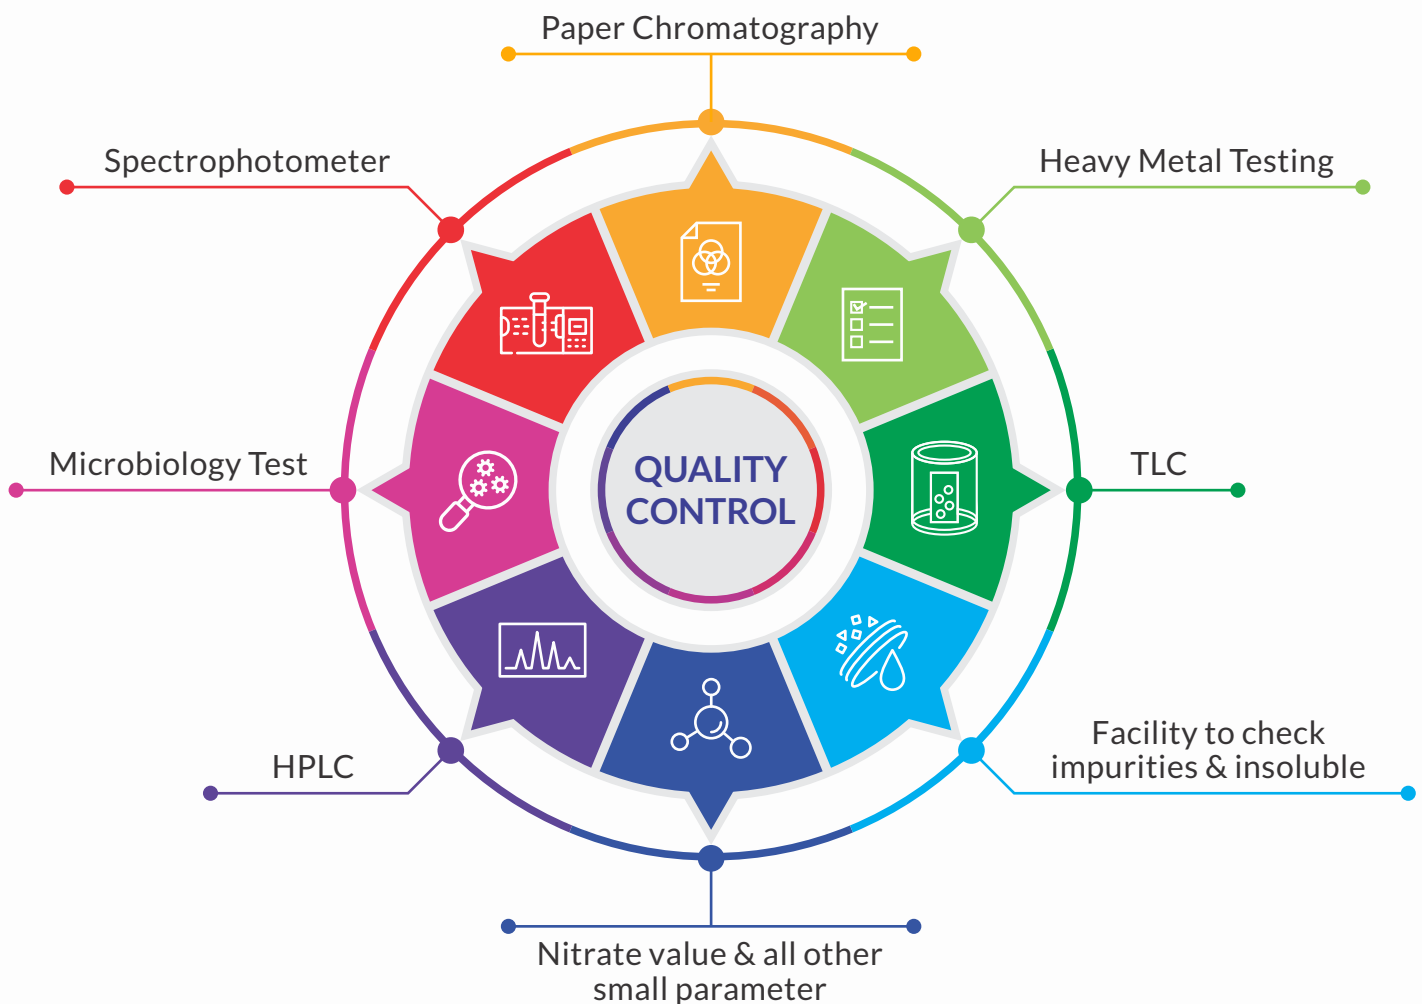

Beet Root

Caramel

## Colours- Where purity and surety meets

We are having following facility in our laboratory for testing

# We care for Clean & Green Earth

Zero Effluent Discharge Facility for ZED to Reduce Pollution

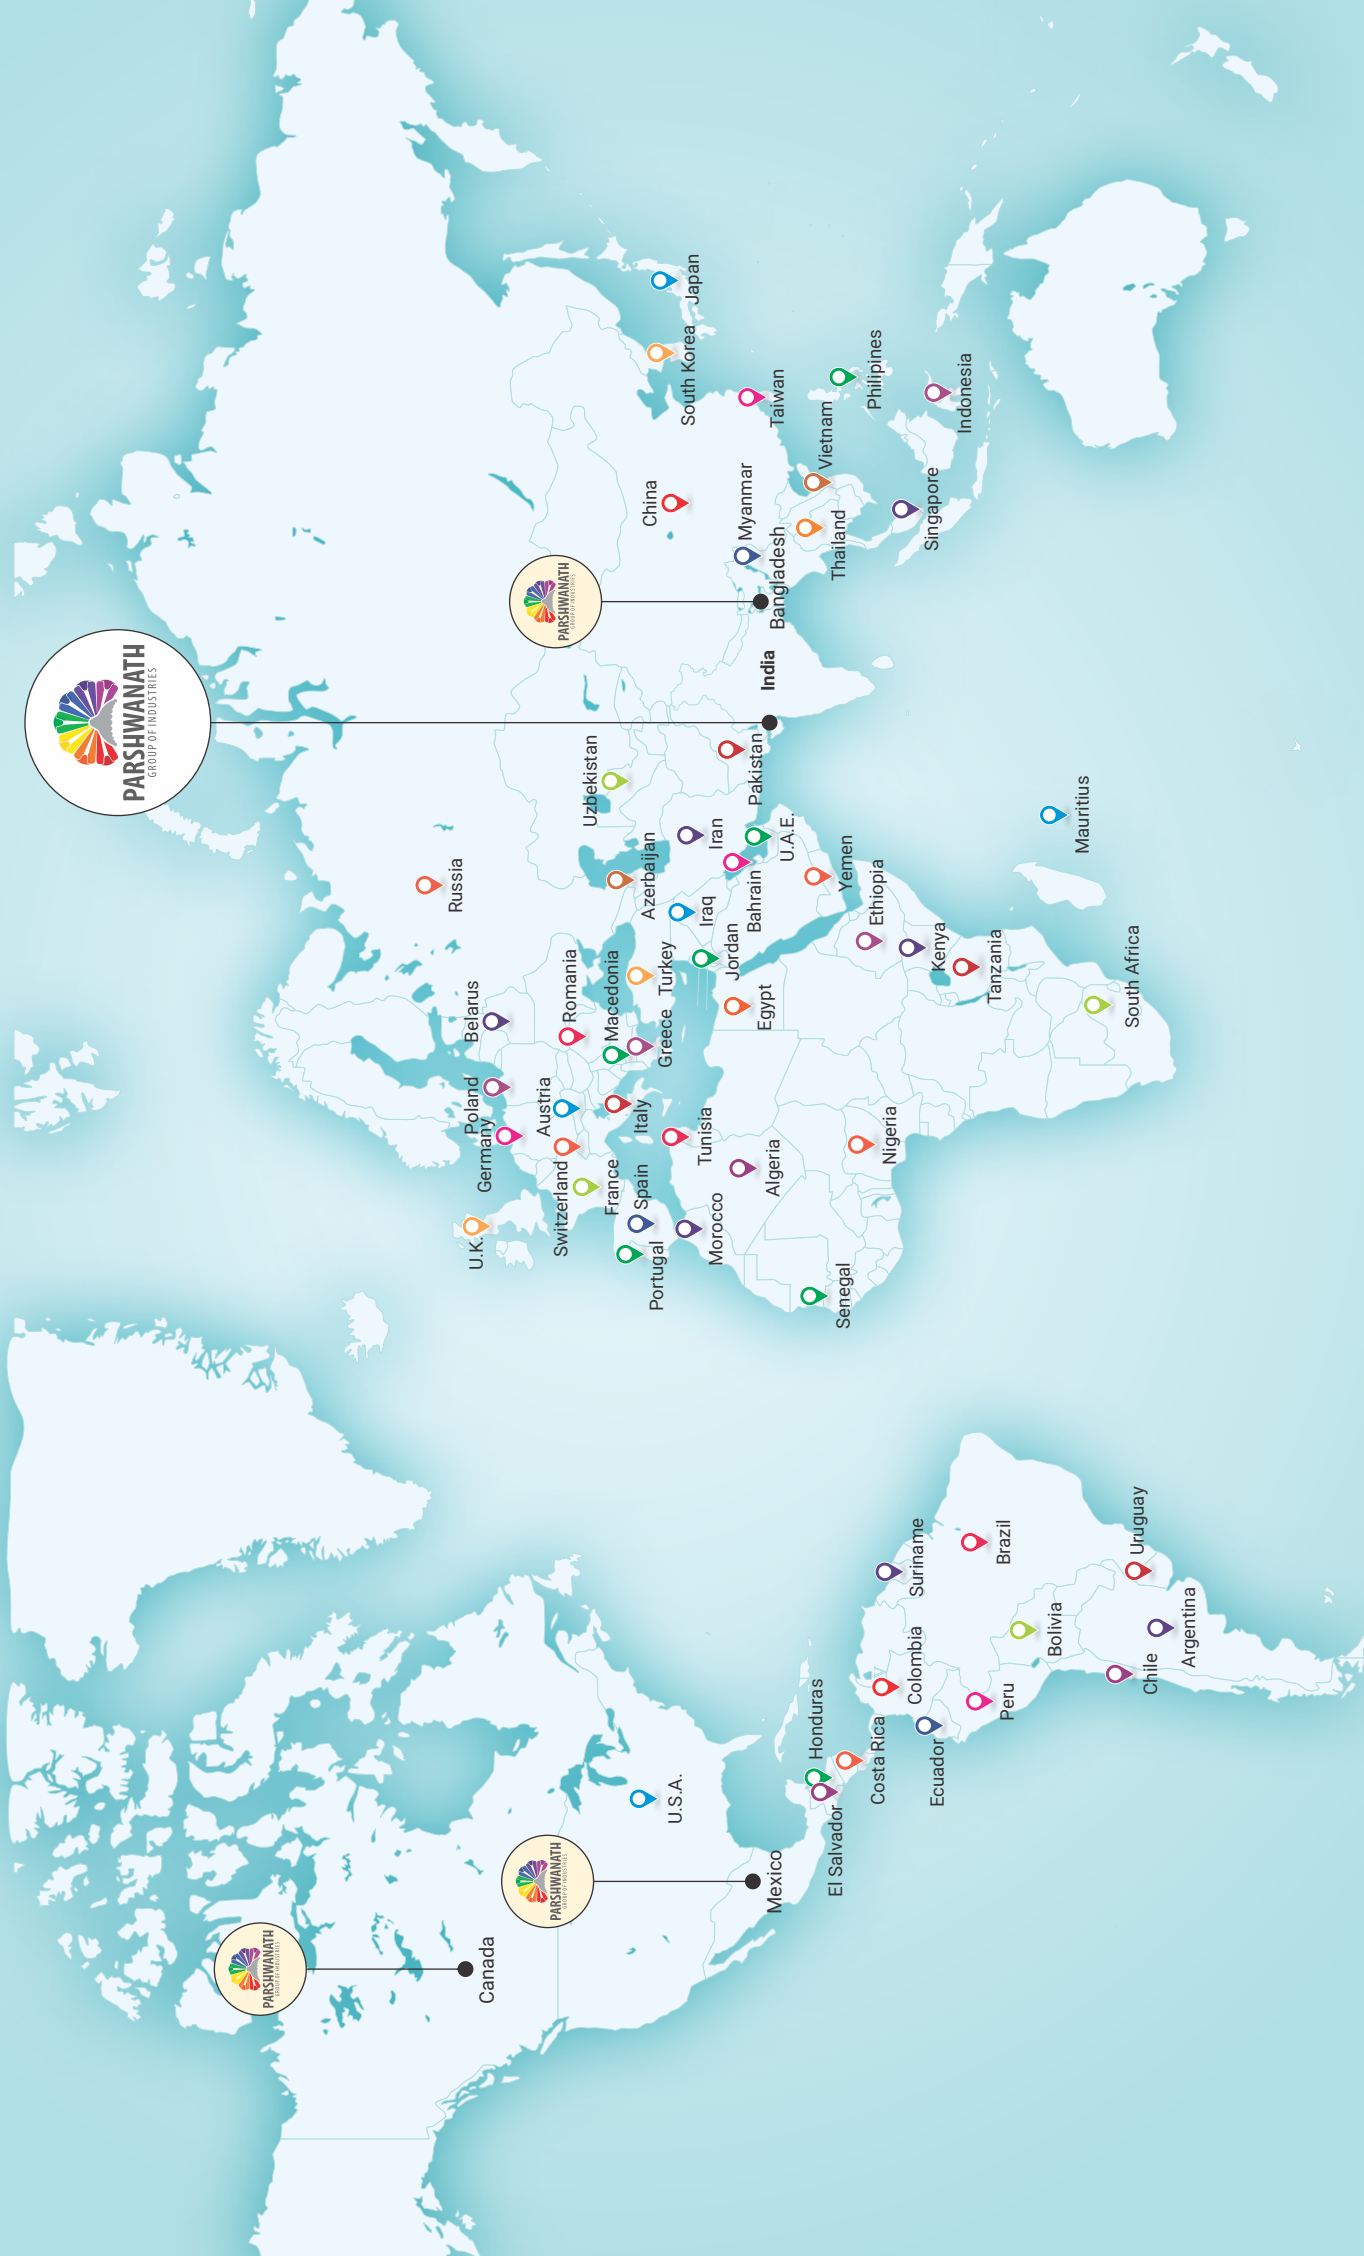

Recycle waste water At 3000 Ltr/Hr.

## Corporate Social Responsibility

At, Parshwanath Group of Industries, we continuously try to emphasis on the local issues where communities are benefited and sustained. Engaging local people in every project is a key aspect for its successful implementation. We enable local people to actively participate in the project activities, wherein their inputs are valued the most. Our key motive is to improve the quality of education, provide infrastructural facilities, provide healthier lives to the marginalized people and facilitate the local community with clean and safe drinking water systems.
