可持续发展 高新技术研发

SUSTAINABLE DEVELOPMENT ADVANCED RESEARCH AND DEVELOPMENT

博升专注于终端市场的研究,针对客户产品特性和应用需求,善于易撕盖创新设计和功能开发,并不断提升材料与工艺技术水平,优化产品使用性能。同时我们与中国食品发酵工业研究院共同组建罐头易撕盖应用安全联合研究中心。与行业专家合作,开发定制多台先进实验设备,可模拟多种产品应用条件。

根据客户产品特性、加工设备及工艺,在产品投放市场之前,进行模拟测试,帮助客户掌握易撕盖应用技术,确保客户产品安全。

多年来,我们积累了大量有价值的实验数据,丰富的实践经验可以帮助我们的客户解决更多应用问题。

BNM concentrates on analyzing the end-user market, focuses on customer product features and application needs. We are good at innovative design and functional development of POE, continuously enhancing materials and technology to optimize product performance. Meanwhile, we set up a Joint Research Centre with China Food Fermentation Industry Research Institute to improve application safety of peel off ends and containers. We also cooperate with industry experts to develop and customize a number of advanced experimental equipments, which can simulate a variety of product application scenario.

We can help customers to master the application technology of POE and ensure product safety by conducting simulation tests before the product is put onto the market.

Over the years, we have accumulated a large number of valuable experimental data. These practical experiences enable us to effectively assist our customers in resolving a wider range of application problems.
