

GRITECHS

GREENWICH INTEGRATED TECHNOLOGIES

TURNKEY PROCESSING
&
PACKAGING SOLUTIONS

A PARTNERSHIP OF COMPANIES
IN THE PROCESSING AND
PACKAGING MACHINERY INDUSTRY.

A Group with a customer first, collaborative, flexible attitude going beyond traditional supplier/customer relationships to truly collaborative partnership relationships.

We provide the design, manufacture and supply of single machines to complete turnkey processing and packaging system solutions, for a diverse range of industrial processes to our global customer base.

From conceptual design stage, utilising state-of-the-art Digital Twin 3D emulation and simulation tools, to managing and implementing all stages of a project to production support on site. Utilising remote support monitoring and diagnostics, if required, to enable predictive maintenance planning and OEE improvements to be implemented.

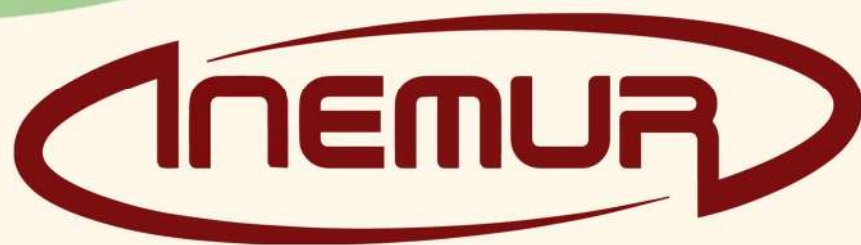

ENGINEERING, AUTOMATION AND
INNOVATION CONSULTANCY

Artica Ingeniería e Innovación (artica+i) is a Technical Consulting and Engineering services company, focused on formulating and implementing optimal solutions for food, logistics and related industries with high sanitary standards, among other sectors.
