PRODUCTS PVT. LTD.**

MANUFACTURER & EXPORTER

MULTILAYER PACKAGING FILMS

Introduction

Harshita Plastic Products Pvt. Ltd. specializes in manufacturing Co-extruded Multilayer Polyfilms and Stretch films, critical components in flexible packaging solutions. Our journey began in 2019, and by 2022, we had set up cutting-edge manufacturing units at Plastic Park, IDA Mankhal, Telangana, Narela - Delhi, and Sonapat - Haryana.

With an expansive 40,000 sq. ft. production facility, our infrastructure is designed to meet the highest standards of cleanliness and hygiene, particularly for food packaging needs. Our facility houses state-of-the-art machines that are capable of producing a wide range of multilayer films for diverse applications.

Our latest and most advanced 3-layer machine can produce superior quality of machine and normal grades of Stretch films used in industrial and domestic packaging.

Manufacturing Capabilities

Co-extrusion Machines:

Our advanced co-extrusion machines can produce multilayer films with superior barrier properties, ensuring better shelf life and product safety for food and industrial applications.

State-of-the Art Quality

Our QC team, with over 20 years of experience, ensures that every film meets industry standards and specific customer requirements. This minimizes defects and ensures optimal performance of the films, whether for food packaging, industrial uses, or specialized applications.

Fully Equipped Lab

To maintain consistent product quality, our facility includes a full-fledged laboratory with modern testing equipment. Each stage of the manufacturing process undergoes rigorous quality control (QC) checks, from raw material input to online production testing and final output verification.

Objective

At Harshita Plastic Products, our goal is simple: to deliver top-quality, multilayer films and stretch films that meet the evolving needs of our customers. We are committed to innovation, sustainability, and providing tailored solutions that enhance the value of our clients' products. By leveraging our extensive industry experience, we continuously work to improve packaging materials, optimize production, and deliver results that exceed expectations.

Specialized Products

We specialize in the manufacturing of various high-performance packaging films, including:

STRETCH FILMS

GP NATURAL / MET. FILMS

MILK / OIL / GHEE FILM

SHRINK FILM

Applications

Food, snacks & confectionery packaging

Grain & fertilizer packaging

Pharma & medical packaging

Agriculture & construction films

Stretch films for industrial and domestic packaging

Shrink films for beverages packaging
