

STEVIA TECH

Healthier Sweetening Solutions

www.steviatech.com

Introduction to **STEVIA TECH**

Steviatech Life Pvt. Ltd., is amongst the **pioneers** in setting up a Complete Commercial Scale Manufacturing of Stevia Extraction, Purification, Crystallization & Bio-conversion facilities in **India**.

Our facility is situated near **Ahmedabad** in Gujarat, India.

Our Vision & Mission

Mission

- Promote natural sweeteners for a healthier lifestyle & freedom to enjoy sweet food guilt-free.
- Reduce dependency on sugar and artificial sweeteners.
- Drive growth to our stake-holders, team and associated partners.

Vision

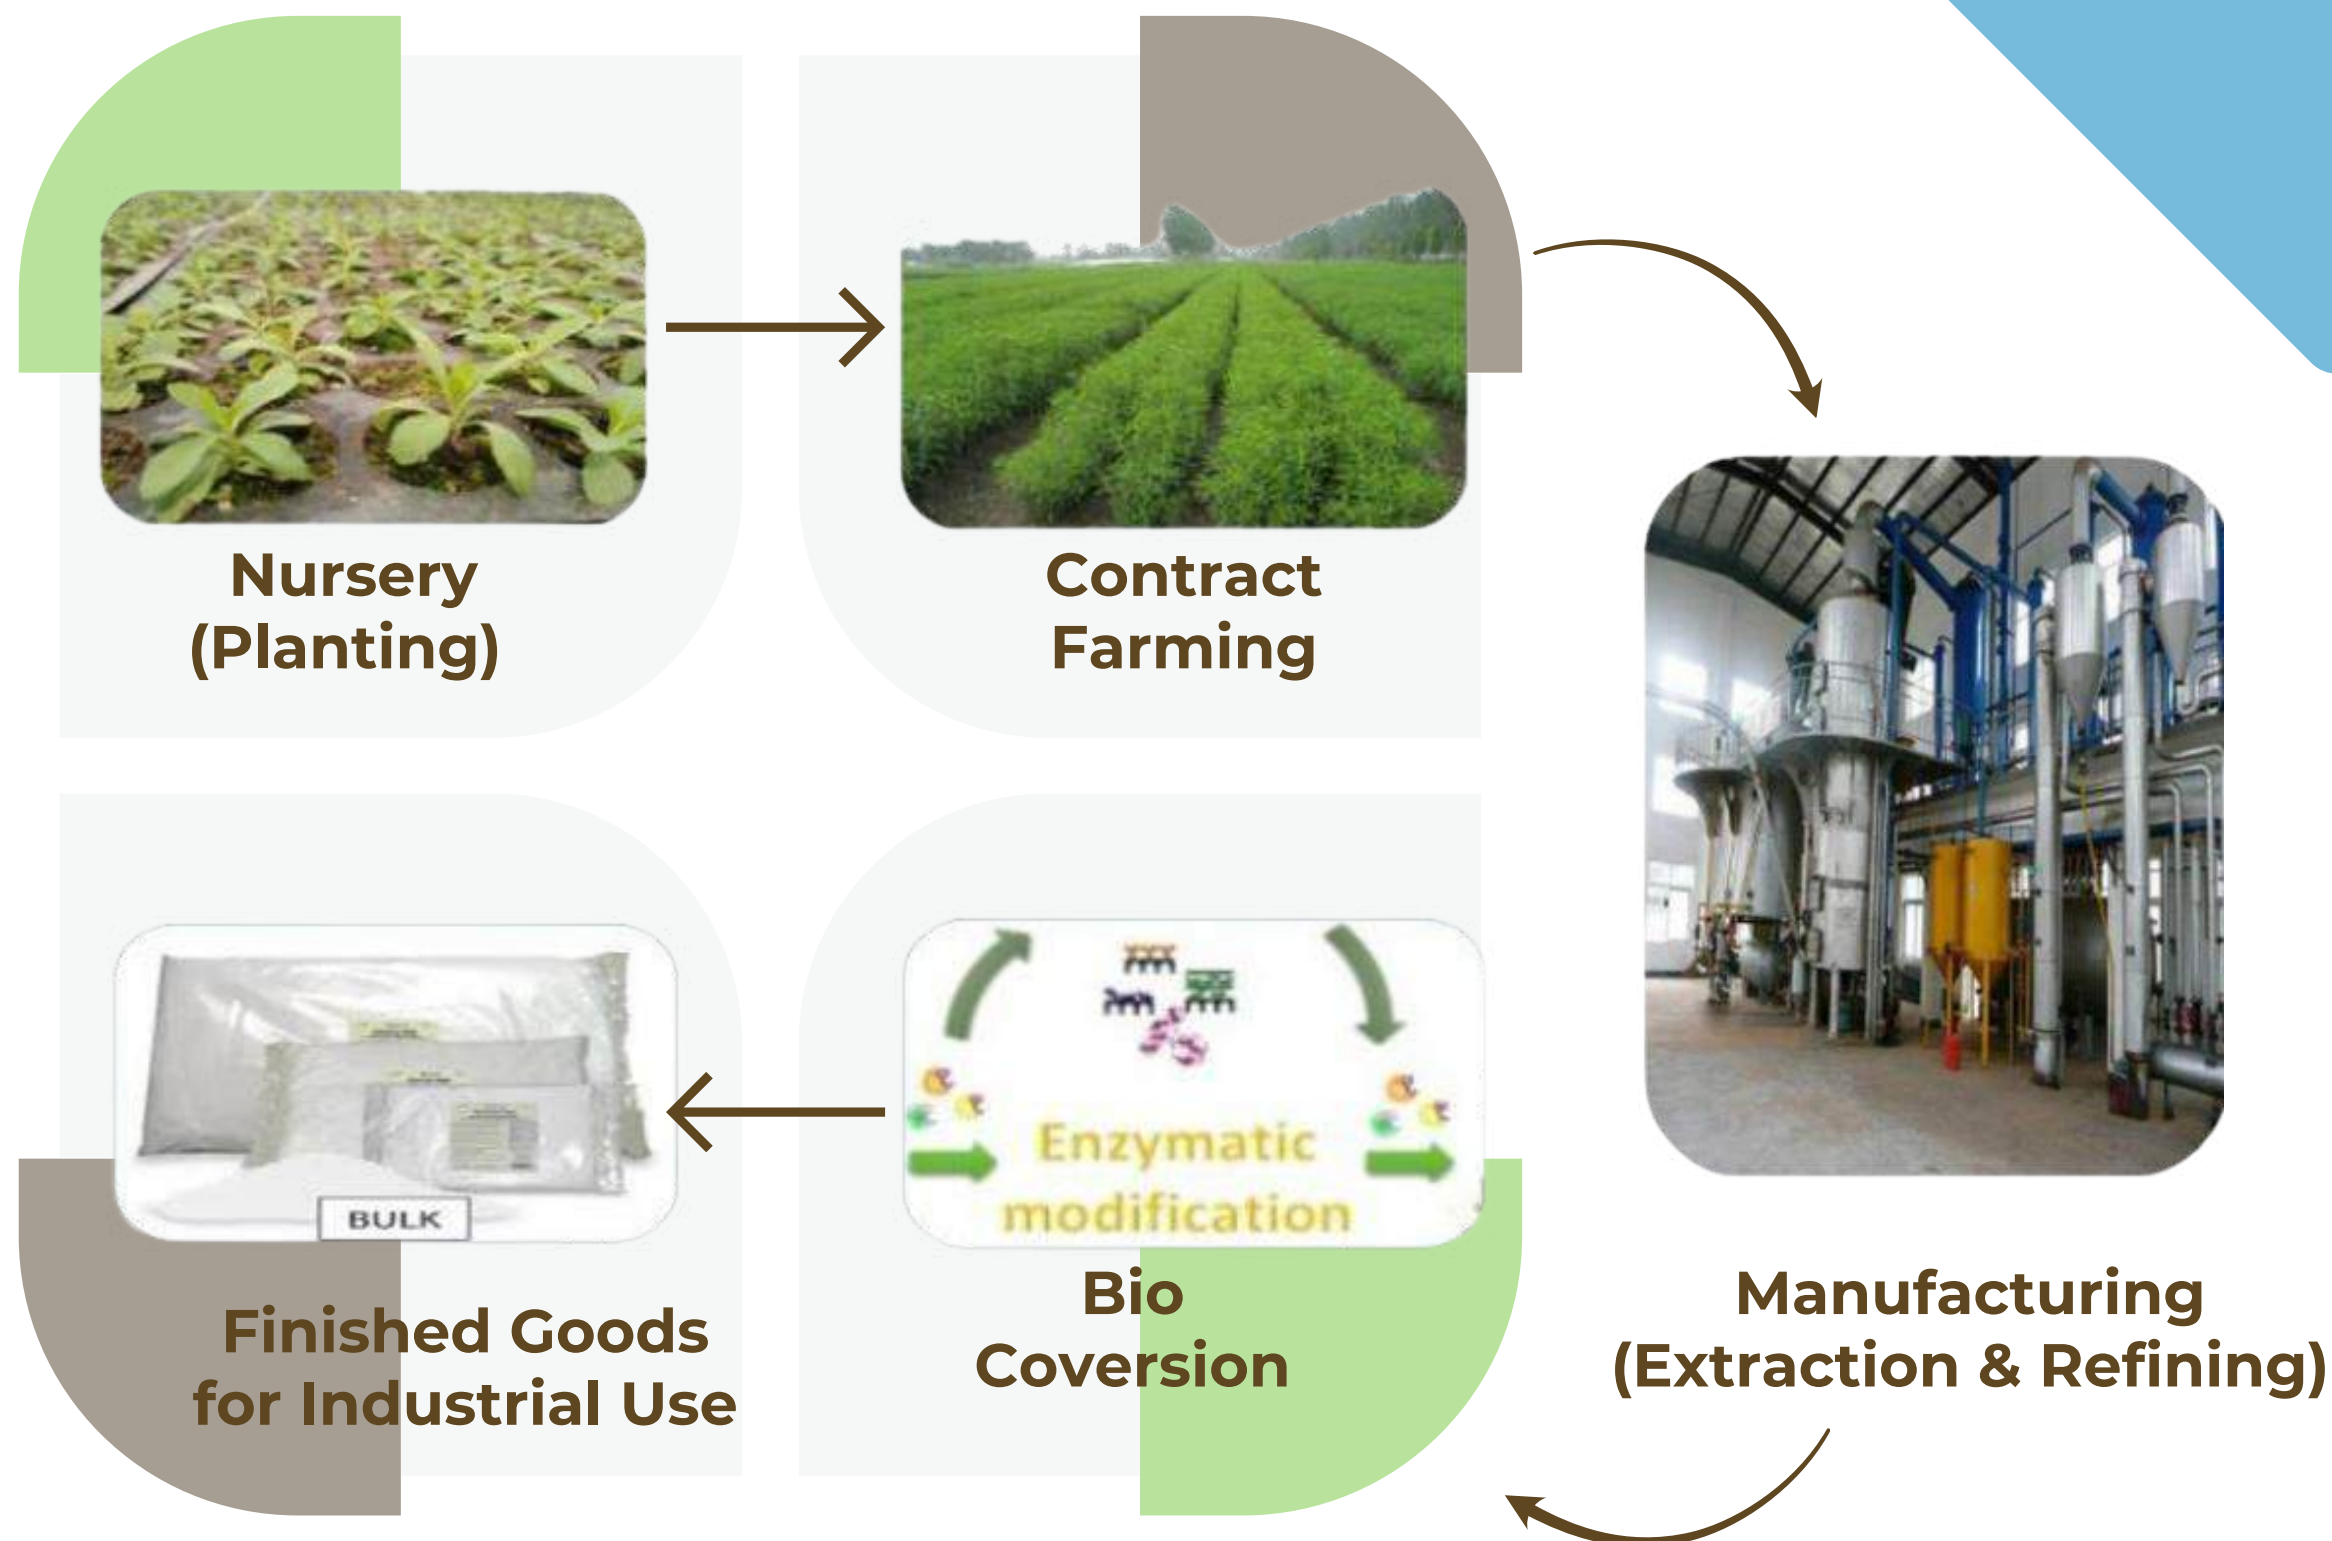

To be amongst the Global leaders in the Stevia space.

Our Business Model

We aim to build a complete **Stevia Value Chain** in **India**. From selection of appropriate varieties, tissue-cultured mother plants, preparation of Planting Material for growers, supporting growers with knowledge, buying the produce, & then processing:

- Extraction
- Purification
- Crystallization &
- Bio-conversion

Our Facilities

Steviatech's facility is designed to support the Steviol Glycosides Production capacity of approximately **125 MT/year**.

- Spread across **3-acre land**, the facility features **3,400 sq.m. Processing area** and a **1,400 sq.m. Utilities area**.
- With a **180 KVA Solar Energy Installation**, we focus on reducing the environmental footprint.

Our Facilities

Additionally, a separate dedicated **500 sq.m. Administrative and Quality Control** are located on the same premises.

Product Range

Stevia Extracts & Healthier Sweetening Solutions

INSTEVIA®

With our proprietary alcohol-free purification & de-bittering process we focus on creating New-Gen INSTEVIA® extracts, a range of natural stevia extracts that have a cleaner taste profile giving a better mouth-feel appeal. You can create all-natural, calorie-free, low-glycaemic products in your formulations.
