

DECOMMODITIZING COMMODITIES

A1|COMMODITIES
COMEXPORT

STRUCTURED OPERATIONS

Our team specializes in structuring complex agricultural finance operations and offers a wide range of products and services to growers and cooperatives. We have executed hundreds of structured transactions across all producing regions in Brazil. Since the early 2000s, our team has driven expansion of the barter modality and fostered our suppliers' growth through innovative credit structures, in addition to handling standard forward and spot transactions.

Sophisticated operations like these are only possible through deep knowledge and close proximity to our partners' activities, allowing us to identify and propose modern, competitive business models. Once these demands are identified, we rely on a comprehensive network of partners in the agricultural inputs segment (fertilizers, seeds, etc.) and financial agents (banks and funds).

Thus, the producer finds in A1 Commodities a partnership focused on tailor-made operational structuring, with a broader product portfolio ranging from the commercialization of its goods for the most demanding global markets to the feasibility of credit, access to inputs, and instruments for price and foreign currency hedges. This model has enabled several producers to meet their annual and long-term needs, including expansion, soil correction, and asset investments.

Going further, aiming to value the qualified agricultural production we access through our suppliers, we have the vast majority of our operations rely on international-level certifications. Long before the subject became part of our daily routine, our commercial team was already developing certified, traceable operations, connecting specialized growers to the most demanding global markets.

SESAME

Brazil has become one of the leading players in the international sesame trade, with year-on-year relevant growth pace. We are already the second-largest exporter of the seed in the World. A1 Comexport's strong presence in the countryside, combined with our own processing facility, ensures consistent quality and compliance with international standards.

Varieties:

- K3
- BRS Seda
- Victoria
- BRS Anahí
- Black

Packaging:

- 50kg bags

BEANS

We offer a wide variety of beans to our customers worldwide. With Brazilian growers seeking more weather-resilient, more profitable crops for our second and third harvests of the year, beans for the export market targeting the Middle East and Asia have been growing steadily. This is the time to start long-lasting relations with trustworthy suppliers from Brazil.

Varieties:

- Green Mung
- Black Mung
- Cowpea
- Black Eyed Bean
- Dark Red Kidney Beans
- Super Brown Eyed Beans

Packaging:

- 50kg bags

GREEN COFFEE BEANS

Working closely with traditional producers and cooperatives, A1 Comexport offers a complete portfolio of high-quality and commercial-grade blends. As important as the quality of the coffee is our ability to ensure uniformity in longer commercial commitments.

We offer a wide range of Brazil's best coffee regions, including high-quality, consistent profiles and rare micro-lots produced on award-winning farms.

Qualities of Arabica and Robusta coffee:

Packing:

- 60kg bags, 1-ton big bags, Bulk liner

COTTON

With more than 20 years originating Brazilian raw cotton from first class growers, we can provide TaylorMade combinations of intrinsic characteristics in order to meet the needs of our customers. Our presence in the countryside providing full support to the farmers and cooperatives allows us to supply high quality commercial frames to strict global markets.

Items to be defined:

- White types of gradation (universal standards)
- Colors
- Staple length
- Resistance
- Micronaire
- SFI, among others.

Packing:

- Bales of cotton fiber

SUGAR

High-quality products supplied by the main sugar and ethanol groups in Brazil comply with Good Manufacturing Practices and Food Safety regulations set by Anvisa, as well as all international certifications required for organic products. .

Redefining Agricultural Trading

A1 Comexport unites professionals with decades of experience sourcing products across Brazil, supplying the domestic market, and exporting to the most demanding global destinations.

Our foundation is built on trust and people. Producers, cooperatives, suppliers, logistics partners, and clients receive personalized, ethical, and transparent service. Every deal reflects clarity and integrity.

“Decommoditizing commodities” is our motto. In a market dominated by impersonal practices, we prioritize closeness—being present in the field and in global markets. This approach sustains long-term relationships and drives innovation.

We’ve pioneered initiatives that meet global demands: Brazilian barter, non-GMO soy with traceability and certification, sustainability programs, and strict quality standards.

The name A1 symbolizes QUALITY, demanded by top growers, global customers, and financial partners. Beyond superior products and services, we aim to understand our partners deeply and deliver complete solutions tailored to their needs.

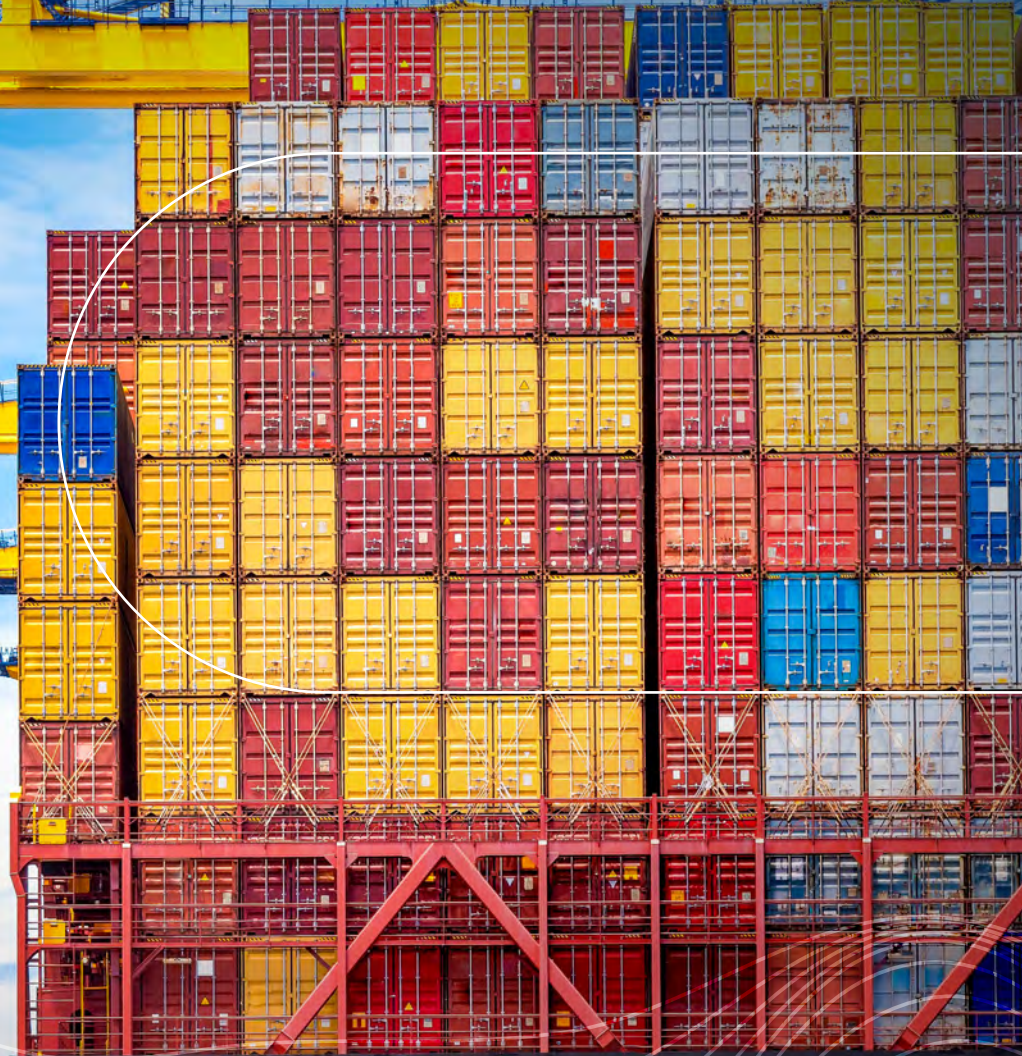

A1 is part of the largest multi products foreign trade company in Brazil. Founded in 1973, COMEXPORT is Brazil’s leading foreign trade company. It boasts the most complete and efficient structure in international trade, with extensive experience in operational, logistical, tax, customs, and financial processes – in addition to being the company in the sector that invests the most in technology innovation, research and development to add value and strategic vision to its customers.

A leader in foreign trade in the country, the company serves various industries worldwide, including automotive and transportation, textile, pharmaceutical, chemical, steel, railway, mining, and food. It has more than 900 employees, is present in the main Brazilian ports, and operates worldwide.
