6 months

A gourmet Italian experience designed for modern living.

ABOUT US

ITALIAN QUALITY, READY FOR RESTAURANTS,
CATERING COMPANIES, AIRLINES AND FOOD PROFESSIONALS

Chic Food history began over a century ago, deeply rooted in the Italian food tradition. From the early 1900s, generation after generation – farmers, bakers, artisans and food merchants – we've passed down a passion for quality and authenticity.

OUR STORY

Chic Food originates from a family tradition that began in Northern Italy's Monferrato region with a small alimentari and evolved over decades into innovative food production. From early bakeries and trattorias to pioneering Italy's first ready-to-eat salads in the 1980s, the company has continuously combined agricultural expertise with innovation.

Today, Chic Food transforms premium regional ingredients into high-quality, ready-to-use solutions for foodservice and gourmet retail, working closely with chefs and food experts. With over 800 products and a strong presence across Italy and key European markets, the company offers reliable logistics and flexible, tailored service.

WHAT WE DO

We supply fresh-cut, ready-to-use fruits and vegetables sourced from selected Italian agribusiness. Our product lines also include organic produce, sauces, juices, oil, biscuits, pasta and prepared dishes (all made with traditional recipes and selected ingredients).

We are the food partner for professionals who want to save time in the kitchen while preserving the original taste of Italian family daily cooking.

PREMIUM ITALIAN FOOD EXPERIENCE

At Chic Food, we offer a curated selection of high-quality Italian food products, carefully chosen to meet the standards of gourmet kitchens, premium retailers catering companies, airlines and upscale hospitality.
