

Connecting Agricultural Markets

Organic • Conventional • Gluten-Free

About Seedea

Seedea is a Poland-based broker connecting suppliers and buyers of plant-based raw materials for the food industry. Since 2015, we have supported producers and buyers by delivering pseudocereals, pulses, seeds, and flours in organic, conventional, and gluten-free variants.

Seedea started in 2015 by helping Polish producers bring their organic and conventional raw materials to European and global markets. As demand grew, we expanded our network to include suppliers from across Europe, offering a wider range of certified ingredients.

Our Mission

We support micro and small organic food processors in expanding their sales to international markets. Our goal is to enhance their competitiveness and visibility abroad, contributing to the growth of their businesses and strengthening local economies—especially in Poland. We build trust among trade partners toward smaller suppliers and create space for sustainable development within the certified organic food sector.

Seedea in Numbers

7,000+

tons of raw materials delivered
per year.

20+

of certified suppliers across Europe
and beyond.

60+

Customers across Europe and
beyond, ranging from food
processors and mills to bakeries
and packaging companies.

80%

of our portfolio is organic.

Ongoing

cooperation with leading food
manufacturers in Poland and Europe.

Partner Testimonials

“Exceptional dedication and responsiveness – highly recommended.”
– Stefano, MartinoRossi

“Competence and seriousness – we closed many deals across Europe.”
– Gianpiero Bernardi, Bernardi Trade

“Seedea helped us expand successfully into new markets”
– Igor Sokol, Skvyryskyi Gran Processing Factory

“Reliable, loyal, and dynamic – trusted for over 10 years.”
– Aneta & Grzegorz

Where We Operate – Market Map

Core markets: Poland, Western Europe, Central Europe, Scandinavia, and the Baltic states. We also ship globally, including to Asia and North America.

Why Partner with Seedea

- Approved and certified supplier base across the EU and non-EU markets.
- Transparent sourcing, documentation, and full quality control on every batch.
- Flexible cooperation—from spot orders to long-term contracts and annual programs.
- Market know-how in organic, conventional, and gluten-free segments.
- Fast, responsive communication and on-time deliveries.

Quality & Compliance

Sourcing – we work with approved producers and certified production sites (e.g., FSSC 22000 or IFS; many also BRC).

→ Safe Production Process

Internal QC at supplier sites; each ton confirmed before release.

→ Transparency

Open communication and full visibility of supplier processes and certifications.

→ Quality Control

External laboratory analyses per EU food regulations and organic standards.

→ Flexible Delivery

Weekly updated schedules, deliveries anywhere in Europe.

How We Work – 5 Easy Steps

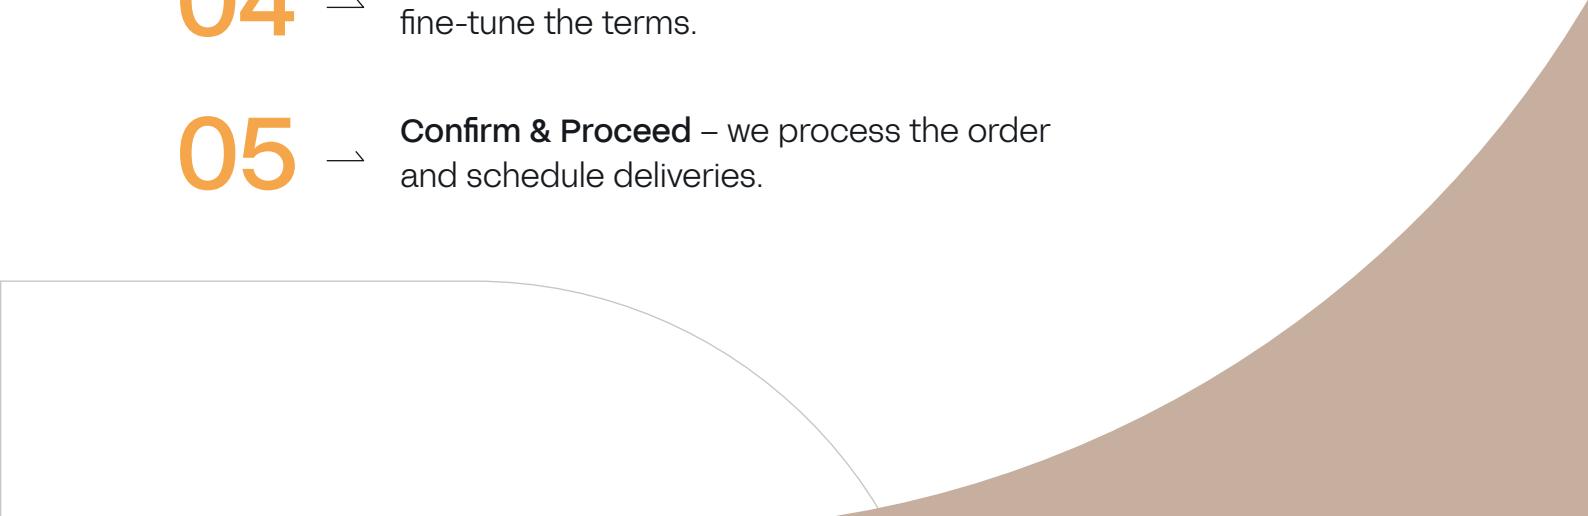

01 → **Get in Touch** – tell us what you need.

02 → **Define Your Needs** – a short Q&A so we fully understand your spec and delivery terms.

03 → **Receive Our Offer** – price, product details, lead time, and logistics.

04 → **Your Feedback** – review, request samples if needed, fine-tune the terms.

05 → **Confirm & Proceed** – we process the order and schedule deliveries.

Buyers pay no fees to Seedea. You receive invoices directly from suppliers; we ensure the terms are clear and transparent.

Benefits for Buyers

- Wide selection of certified bulk ingredients from trusted suppliers.
- Easy, transparent cooperation handled by one point of contact (Seedeal).
- Every batch externally analyzed; audit support on request.
- Mixed deliveries and order modifications possible to fit your needs.
- Long-term contracts for supply stability and budget planning.

Benefits for Suppliers

- Access to major food buyers across Europe and beyond.
- Proactive promotion of your products and support in negotiations and claims handling.
- Improved visibility and more orders through our customer network.
- Long-term partnerships with a reliable, transparent broker.

FAQ

→ Who is the seller? Is Seedea the seller?

No. Seedea acts as a broker connecting buyers with suppliers of bulk food ingredients. You purchase directly from the supplier; the invoicing party is the direct seller.

→ Are your suppliers GFSI-certified?

Yes. Almost all of our suppliers hold GFSI certifications such as FSSC 22000, IFS, or BRC.

→ Who arranges the shipment?

Shipments are scheduled according to the buyer's timeline. Seedea coordinates logistics to ensure smooth and timely deliveries.

→ Who will handle daily communication?

Seedea is your central point of contact for orders, logistics, and certificates—to keep things simple.

→ What are the payment terms?

Payment terms are negotiated between the buyer and the seller as part of the final agreement. Seedea facilitates the process to ensure clarity.

→ How soon will I receive my order after signing the contract?

Typically within 2–3 weeks, depending on the buyer's delivery schedule.

→ What is the minimum order quantity (MOQ)?

Standard MOQ is 12 tons. We can also arrange mixed loads of 2–3 bulk ingredients in a single delivery.
