MEHRAB PISTACHIOS

MEHRAB Pistachio is an Iranian company specialising in the sourcing, production, processing, and delivery of premium Iranian pistachios to customers around the world. We work directly with a network of more than 500 farmers across different regions of Iran, covering over 1,500 hectares of pistachio orchards. This integrated supply base allows us to ensure consistent quality, full traceability, and a reliable year-round supply.

Our Offices and representatives in key markets enable faster and more efficient service, follow-up, and documentation.

worldwide. Key markets:

- United Kingdom [UK]
- Netherlands [NL]

%10 small, %10 Broken

GREEN PEELED PISTACHIO KERNELS

Green pistachio kernels are produced through a demanding thermal process without the use of any additives. The resulting colour shades are completely natural and unique to pistachios. After peeling, the kernels are sorted and classified into five colour grades. Depending on the level of ripeness, the colour of each grade ranges from deep green to yellow.

Grades of Green
Peeled
Pistachio
Kernels

-S
