

Imagine a company...

Problem solving for
bottling and packaging lines

www.europool.biz

Our story begins in 1993

Our mission

We go beyond the layout of production lines: we combine the needs of each business – from small local companies to large multinationals – with the most cost-effective and innovative market solutions, supporting every project with dedicated services. We use only high-level products and materials, embodying the true Made in Italy, appreciated worldwide. This commitment has enabled us to collaborate with some of the top players in the industry.
